

## Business Intelligence Data Analyst

Renaissance® is a leading provider of assessment technology to primary and secondary schools. Renaissance products promote success amongst students of all ages and abilities through personalised assessment and practice in reading and maths.

Our software helps to enhance literacy and numeracy skills, support differentiated instruction, and personalise learning to optimise student development. Immediate feedback and detailed reporting equip teachers with the information needed to monitor progress and measure growth. In the UK and Ireland, almost 6,000 schools and more than 1.4 million students use Renaissance products. Worldwide, we support over 18 million students, operating in 96 countries.

We are looking for a Business Intelligence Data Analyst to join our UK team. This role within a busy BI team which is part of the wider marketing department will be particularly focused on sourcing, utilizing and analyzing data as well as providing full data support to the BI Manager. This role will initially be working remotely but the successful applicant will need to be available to travel to our office in London if required.

### Responsibilities:

- Create a reporting suite for each department within the International region to monitor specific KPIS.
- Develop and implement data cleansing and validation processes
- Create reports/views for each department to meet their specific requirements
- Create and share monthly reports/analytics with Sales and other departments as appropriate
- Research and develop relationships with data providers
- Support the BI team with all data requests
- Liaise with the US BI data analysts on a weekly basis to share data queries and update on current projects.

### Requirements:

- Excellent communication (oral, written and presentational), attention to detail and a high level of responsiveness to internal and external stakeholders.
- Strong organisational and time management skills.
- Good computer skills with a good working knowledge of programs such as MS Word, Excel and PowerPoint. Database - Dynamics and basic SQL Knowledge and experience of data visualization software, such as Tableau.
- Driven to succeed and highly capable of prioritising / managing work load to meet milestones and deadlines.
- Excellent problem-solving skills and ability to develop new approaches / solutions to achieve targets.

# RENAISSANCE<sup>®</sup>

## Education & Experience

Ideally a business degree and/or experience of working within a data team/office environment. Familiarity with the education sector (especially Key Stages 2-4), would be useful, although not essential. The role requires self-motivation and the ability to work unsupervised and to tight deadlines.

To apply, send your covering letter and CV with the title 'Business Intelligence Data Analyst' to [jobs@renlearn.co.uk](mailto:jobs@renlearn.co.uk).
