Why is it so important to meet your targets?

Reading is a skill just like football, dancing or playing a musical instrument. The more you practice, the faster you will improve. This will help you in lessons and allow you to read even more exciting books. Therefore, it is important that you try your best. But do not fear: you can use the table below to help you find solutions for what you can do next.

How to improve your average percentage correct:	How to best achieve your points target:	How to choose your next book level:															
<p>Quiz as soon as possible after finishing your book.</p> <p>Use the 5 W's to review:</p> <ul style="list-style-type: none"> • Who? • What? • Where? • When? • Why? <p>Make notes when reading and look over your notes before quizzing.</p> <p>Make sure your book is within your ZPD range.</p> <p>Take your time when quizzing. Read each question and all the answers twice.</p>	<p>Be sure you stick with a book and finish it.</p> <p>Look at your point's target. You can earn these by reading lots of short books or just a few longer books, but make sure they add up to your target.</p> <p>Try to finish books before the end of the half-term. If the half-term is almost over, choose a short book.</p> <p>Always aim for 100% to earn all the book's points.</p> <p>Think of when you could fit in a bit more reading. E.g. 10 minutes before bed; in the lunch queue; on the bus; etc...</p>	<p>Look over your last quiz result. Then, use the chart below:</p> <div style="border: 1px solid #ccc; padding: 10px; margin: 10px 0;"> <p>What does my score tell me?</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="text-align: center; background-color: #0056b3; color: white; padding: 5px;">100%</td> <td style="text-align: center;">→</td> <td style="background-color: #0056b3; color: white; padding: 5px;">This book was comfortable for you, perhaps try a book higher up in your ZPD range next time.</td> </tr> <tr> <td style="text-align: center; background-color: #0056b3; color: white; padding: 5px;">90%</td> <td style="text-align: center;">→</td> <td style="background-color: #0056b3; color: white; padding: 5px;">This book was perfect for you.
